MAN

## BORIS M. ACKERMAN, MD

PLASTIC SURGEON

For Dr. Boris Ackerman, success and passion go hand in hand. As one of California's premiere Plastic Surgeons, Dr. Ackerman's success comes from his passion for creating excellent results. His patients travel far and wide for his signature Deep Plane Facelift.

An Ivy League-trained Plastic Surgeon, Dr. Ackerman graduated from M.I.T before pursuing a Doctorate in Medicine at Dartmouth. During these studies, he was exposed to the field of Plastic Surgery, becoming fascinated by the ability to change the human body for reconstructive or aesthetic purposes. His interest turned to passion when he discovered the human aspect, finding personal and professional gratification in the happiness of his patients.

"My patients continue to be my great inspiration," says Dr. Ackerman. "Seeing how the results of my work enhance their outlook on life inspires me to treat each individual patient as part of our medical office family."

A firm believer in doing things the right way, Dr. Ackerman's insatiable work ethic and refusal to cut corners are the foundation of his continued success. He's traveled the world learning from the best Facial Rejuvenation Surgeons. As an expert in Deep Plane Facelift, Dr. Ackerman hosts other plastic surgeons in his operating room, sharing his knowledge. Currently, Dr. Ackerman is working on a publication of his technique, including video animation and intraoperative video illustrations to teach his method to a broader professional audience.

With patient experience at the heart of his practice, Dr. Ackerman has achieved premier status within the Orange County community and the greater medical industry. An undeniable Modern Man, he's acutely aware of his patients, community and society— placing equal weight on the needs of each.

"I decided to adopt the following motto: in pursuit of beauty, harmony and excellence," says Dr. Ackerman. "I have been true to that theme ever since."
